# 52.209-9 UPDATES OF PUBLICLY AVAILABLE INFORMATION REGARDING RESPONSIBILITY MATTERS (JULY 2013)

- (a) The Contractor shall update the information in the Federal Awardee Performance and Integrity Information System (FAPIIS) on a semi-annual basis, throughout the life of the contract, by posting the required information in the System for Award Management database via <a href="https://www.acquisition.gov">https://www.acquisition.gov</a>.
- (b) As required by section 3010 of the Supplemental Appropriations Act, 2010 (Pub. L. 111-212), all information posted in FAPIIS on or after April 15, 2011, except past performance reviews, will be publicly available. FAPIIS consists of two segments--
- (1) The non-public segment, into which Government officials and the Contractor post information, which can only be viewed by--
- (i) Government personnel and authorized users performing business on behalf of the Government; or
- (ii) The Contractor, when viewing data on itself; and
- (2) The publicly-available segment, to which all data in the non-public segment of FAPIIS is automatically transferred after a waiting period of 14 calendar days, except for-
- (i) Past performance reviews required by subpart 42.15;
- (ii) Information that was entered prior to April 15, 2011; or

- (iii) Information that is withdrawn during the 14-calendar-day waiting period by the Government official who posted it in accordance with paragraph (c)(1) of this clause.
- (c) The Contractor will receive notification when the Government posts new information to the Contractor's record.
- (1) If the Contractor asserts in writing within 7 calendar days, to the Government official who posted the information, that some of the information posted to the non-public segment of FAPIIS is covered by a disclosure exemption under the Freedom of Information Act, the Government official who posted the information must within 7 calendar days remove the posting from FAPIIS and resolve the issue in accordance with agency Freedom of Information procedures, prior to reposting the releasable information. The contractor must cite 52.209-9 and request removal within 7 calendar days of the posting to FAPIIS.
- (2) The Contractor will also have an opportunity to post comments regarding information that has been posted by the Government. The comments will be retained as long as the associated information is retained, i.e., for a total period of 6 years. Contractor comments will remain a part of the record unless the Contractor revises them.
- (3) As required by section 3010 of Pub. L. 111-212, all information posted in FAPIIS on or after April 15, 2011, except past performance reviews, will be publicly available.
- (d) Public requests for system information posted prior to April 15, 2011, will be handled under Freedom of Information Act procedures, including, where appropriate, procedures promulgated under E.O. 12600.

# 52.216-19 ORDER LIMITATIONS (OCT 1995)

- (a) Minimum order. When the Government requires supplies or services covered by this contract in an amount of less than \$2,000.00, the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.
- (b) Maximum order. The Contractor is not obligated to honor -
  - (1) Any order for a single item in excess of \$500,000.00;
  - (2) Any order for a combination of items in excess of \$1,800,000.00; or
- (3) A series of orders from the same ordering office within five days that together call for quantities exceeding the limitation in paragraph (b) (1) or (2) of this section.
- (c) If this is a requirements contract (i.e., includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.
- (d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within two days after issuance, with written notice stating the Contractor's intent not to ship the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of clause)

# 52.216-22 INDEFINITE QUANTITY. (OCT 1995)

The preliminary notice does not commit the Government to an extension.
- (b) If the Government exercises this option, the extended contract shall be considered to include this option clause.
- (c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed five (5) years.

## 52.219-28 POST-AWARD SMALL BUSINESS PROGRAM REREPRESENTATION (JULY 2013)

(a) Definitions. As used in this clause--

Long-term contract means a contract of more than five years in duration, including options. However, the term does not include contracts that exceed five years in duration because the period of performance has been extended for a cumulative period not to exceed six months under the clause at 52.217-8, Option to Extend Services, or other appropriate authority.

Small business concern means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on Government contracts, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause. Such a concern is ``not

dominant in its field of operation" when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

- (b) If the Contractor represented that it was a small business concern prior to award of this contract, the Contractor shall rerepresent its size status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon the occurrence of any of the following:
- (1) Within 30 days after execution of a novation agreement or within 30 days after modification of the contract to include this clause, if the novation agreement was executed prior to inclusion of this clause in the contract.
- (2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.
- (3) For long-term contracts--
- (i) Within 60 to 120 days prior to the end of the fifth year of the contract; and
- (ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.
- (c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code assigned to this contract. The small business size standard corresponding to this NAICS code can be found at http://www.sba.gov/content/table-small-business-size-standards.
- (d) The small business size standard for a Contractor providing a product which it does not manufacture itself, for a contract other than a construction or service contract, is 500 employees.
- (e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The

Contractor shall notify the contracting office in writing within the timeframes specified in paragraph (b) of this clause that the data have been validated or updated, and provide the date of the validation or update.

- (f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.
- (g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

The Contractor represents that it ( ) is, ( ) is not a small business concern under NAICS Code	<ul> <li>assigned to</li> </ul>

(Contractor to sign and date and insert authorized signer's name and title).

(End of clause)

(a) Definitions. As used in this clause--

Global warming potential means how much a given mass of a chemical contributes to global warming over a given time period compared to the same mass of carbon dioxide. Carbon dioxide's global warming potential is defined as 1.0.

High global warming potential hydrofluorocarbons means any hydrofluorocarbons in a particular end use for which EPA's Significant New Alternatives Policy (SNAP) program has identified other acceptable alternatives that have lower global warming potential. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables of alternatives available at (http://www.epa.gov/snap/).

Hydrofluorocarbons means compounds that only contain hydrogen, fluorine, and carbon.

Ozone-depleting substance means any substance the Environmental Protection Agency designates in 40 CFR part 82 as--

- (1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or
- (2) Class II, including, but not limited to, hydrochlorofluorocarbons.
- (b) The Contractor shall label products that contain or are manufactured with ozone-depleting substances in the manner and to the extent required by 42 U.S.C. 7671j (b), (c), (d), and (e) and 40 CFR part 82, subpart E, as follows: Warning: Contains (or manufactured with, if applicable)
- \*\_\_\_\_\_, a substance(s) which harm(s) public health and environment by destroying ozone in the upper atmosphere.
  - \* The Contractor shall insert the name of the substance(s).
- (c) Reporting. For equipment and appliances that normally each contain 50 or more pounds of hydrofluorocarbons or refrigerant blends containing hydrofluorocarbons, the Contractor shall--
- (1) Track on an annual basis, between October 1 and September 30, the amount in pounds of hydrofluorocarbons or refrigerant blends containing hydrofluorocarbons contained in the equipment and appliances delivered to the Government under this contract by--
- (i) Type of hydrofluorocarbon (e.g., HFC-134a, HFC-125, R-410A, R-404A, etc.);
- (ii) Contract number; and
- (iii) Equipment/appliance;
- (2) Report that information to the Contracting Officer for FY16 and to www.sam.gov, for FY17 and after-
- (i) Annually by November 30 of each year during contract performance; and
- (ii) At the end of contract performance.
- (d) The Contractor shall refer to EPA's SNAP program (available at <a href="http://www.epa.gov/snap">http://www.epa.gov/snap</a>) to identify alternatives. The SNAP list of alternatives is found at 40 CFR part 82, subpart G, with supplemental tables available at <a href="http://www.epa.gov/snap">http://www.epa.gov/snap</a>).

Contractors shall not invoice the minimum guarantee until authorized by the Contracting Officer.

#### ORDERING WORK

The following procedure will be used to order work. Such work may be called for by the issuance of a Delivery Order/Delivery Order modification, by the Administrative Contracting Officer (ACO), during the term of the contract.

a. The award of any individual delivery order will consider factors such as past performance on earlier delivery orders under the multiple award contract, capacity and price.

Fair opportunity will be provided to all awardees to compete on individual delivery orders issued hereunder, except as noted at FAR 16.505(b)(2). When exempt from the obligation to provide fair opportunity to compete, the Government may unilaterally place orders based on set contract prices.

The Contracting Officer will place orders after all required negotiations with competing contractors have been completed based on the best value to the Government in terms of past performance, capacity and price.

In order to accurately assess a contractor's capacity, the Contracting Officer will provide a capacity evaluation form (Attachment J12) with the Request for Contractor Proposal (RCP) to assess a contractor's capacity to perform future deliveries. While not mandatory, IDIQ contractors that prefer that the Contracting Officer have additional information regarding their firm's capacity that might not be readily available in MARMC records, may complete the capacity evaluation form and return it to the Contracting Officer. No other forms or format will be considered acceptable, e.g., letters, emails, or telephone calls. Failure to complete the capacity evaluation form may result in incomplete information regarding a firm's capacity to perform future deliveries which could result in a firm being awarded a delivery order during a time period in which it does not have the capacity to perform. The burden is on each awardee to keep the Contracting Officer informed of any changes to its capacity through the capacity evaluation form that could impact its ability to timely perform a delivery order.

- b. The contractor shall not proceed with the work until a Delivery Order/Delivery Order modification is issued. Whenever the ACO determines that it is in the interest of the government not to delay performance of the work until a price is negotiated, the ACO may specify in the Delivery Order that the contractor shall proceed forthwith. In every case, prior to completion of the work called for therein, the parties shall negotiate a price and delivery schedule as expeditiously as possible and modify the Delivery Order accordingly.
- c. The resulting Delivery Orders may require multiple line items within the contract. Due to U.S. Navy or other customer commitments and schedules, a significant number of Delivery Orders may be issued as emergent requirements. The contractor may be required to respond to more than one requirement (simultaneous Delivery Orders for more than one boat, craft, lighterage, or service craft). A delivery order may consist of a single or multiple vessels.
- d. In negotiating the fixed price for materials, the contractor shall submit proposals or invoices for the material required. The negotiated price for materials on additional work shall be the proposal or invoice price submitted by the contractor for actual materials plus transportation charges, both subject to verification by the Government as to reasonableness.

e. In negotiating a fixed number of man hours for work, the contractor's proposal may include quality assurance, engineering and supervision hours, in addition to trade hours required to accomplish the work as long as the hours proposed are not covered by an indirect cost pool under the contractor's accounting system. All hours treated as indirect hours under the contractor's accounting system, must be accounted for as a factor included in the hourly rate. The Government will not agree to pay for indirect hours in the man hour negotiations.

The Government anticipates establishing liquidated damages for certain delivery orders. The amount of the liquidated damages for such a delivery order will be stipulated in the Request for Contractor Proposal (RCP).

- f. During the course of work under other contract items, the contractor shall promptly recommend to the ACO, in writing, additional work as he discovers the need for such work. Concurrently, the contractor shall quote a price and delivery time for the additional work. The ACO shall promptly review the recommendation and may, after reaching agreement with the contractor, issue a Delivery Order/Delivery Order modification. The government has no obligation under this paragraph to issue any Delivery Order/Delivery Order modification.
- g. Additional work related to a Delivery Order need only be offered to the contractor awarded the related Delivery Order and need not be offered to other multiple awardees.
- h. When the contractor intends to subcontract any effort, intent of same shall be expressed to the COR during the work scope conference and made a part of the estimates (both contractor and Government estimates). Any subsequent subcontracted effort required after start of work on any assigned delivery orders shall be made known to the COR, with additional scoping effort and estimates required for the same.

Subcontract effort shall not be priced as material or considered as part of the material pool. Instead, subcontract effort shall be considered the same as prime contract effort when pricing, delivery orders, etc. However, estimates should distinguish between prime and subcontract effort for record keeping purposes.

- i. The performance period for each requirement will be designated on each individual delivery order.
- j. All items and data furnished hereunder shall be delivered with all transportation charges paid by the contractor to the destination specified in the Delivery Order.
- k. Emergent Requirements. A number of orders issued under this contract are expected to be classified as "Emergent Work" by the Contracting Officer (CO). The contractor will be expected to commence effort within one day after receiving directions to proceed.
- l. If the Schedule requires work to be performed aboard ship while located at a Government installation, Offerors are urged and expected to inspect the site where services are to be performed and to satisfy themselves as to all general and local conditions, including security requirements that may affect the cost of performing the work, in the event such information is reasonably obtainable. In no event will the failure to inspect the site constitute grounds for a claim after award of the delivery order/contract.
- m. While the current Threat Condition is set at Bravo, Threat Condition Charlie shall be considered in the contract negotiated price. Any costs associated with delays, disruptions, or security precautions associated with Threat Condition Charlie shall be included in your delivery order proposals. Contractors will not receive additional compensation for delays, disruptions, or security precautions associated with Threat Condition Charlie.
